## RETIREMENT

### Education strategy worksheet

Date \_\_\_\_\_

A college education has become a necessity in today's competitive environment, but the cost of higher education continues to outpace the rate of wage inflation. To help your children and grandchildren avoid excessive debt because of future college bills, it is important to create an education financial strategy today.

Your Merrill Lynch Financial Advisor can help you select the plan that is most appropriate for you. Descriptions of the types of plans available are on page 2.

### Directions

Complete the information in the chart below to help you understand how well your current education savings are doing toward meeting future needs. Then, contact your Merrill Lynch Financial Advisor and request an Education Snapshot report to determine estimated future education costs and how much you will need to save.

Child's name	Educational Goal	Plan type (include 529 plans, education savings accounts and UGMA/UTMA accounts)	Current account value	How much will you need for education costs?*	How many years until you need the money?	My action plan

**Before you invest in a Section 529 plan, request the plan's Program Description from the program or your Financial Advisor and read it carefully. The Program Description contains more complete information, including investment objectives, charges, expenses and risks of investing in the plan, which you should carefully consider before investing. You should also consider whether your home state or your designated beneficiary's home state offers any state tax or other benefits that are available only for investments in such state's 529 plan.**

**Please remember there's always the potential of losing money when you invest in securities.**
